

C.E.R.T. Training For Monterey Area Residents in October 2023

The Community Emergency Response Team (CERT) Program uses a FEMA curriculum to educate people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. Using the training learned in the classroom and during exercises, CERT members can assist their families and others in their neighborhood or workplace following an event when professional responders are not immediately available to help. CERT also participates in searches for missing persons, serves as coastal spotters for persons swept out to sea, storm response and other emergencies.
