## MONTEREY POLICE DEPARTMENT

### Citizen Commendation

*"I am a so-called "senior citizen," in my early 80's and want to applaud you all for helping me today. This afternoon, after I had gotten a haircut, I searched the area for my car and couldn't find it. I had forgotten where I parked it and was rather appalled by this, didn't know what to do; I walked many streets for several hours looking but didn't find it. I called you all, explained my situation, and gave you the description and year of my car and you told me to wait and a police car would search the area where I thought I had parked my car. After waiting about an hour, indeed along comes a police cruiser, and the two officers cheerfully said, "We found your car!" I got in, and we went to a totally different area than I had remembered I had parked and there was my car. Thank you so much to the two officers who were also very kind. This problem of mine was very simple, really, unlike some of the issues I am sure you all must deal with. I find myself very grateful for you all and in particular today; who knows how much longer (and how much colder!) I would be without your help."*

## National Incident Based Reporting System

The Monterey Police Department (MPD) transitioned to the California and National Incident-Based Reporting Systems (CIBRS and NIBRS) on March 1, 2022 and has completed the required three (3) month validation period. CIBRS and NIBRS reporting meets state and federal data standards and supports the national transition to NIBRS. As the new data collection standard, NIBRS captures all offenses within an incident – up to ten crime occurrences, representing a substantial shift in crime reporting. The additional detailed crime incident data provides greater analytic capability and makes NIBRS a superior crime-reporting method when compared to the previously utilized Uniform Crime Reporting (UCR) standard. MPD has fully transitioned to NIBRS reporting and discontinued UCR reporting.

This new reporting yields a different format for data collection and is divided into Group A and Group B offenses. Group A offenses are the more serious crimes such as Murder, Rape, Robbery, etc. Group B offenses tend to be minor offenses, such as Curfew, Loitering and Vagrancy Violations, Disorderly Conduct, and Driving Under the Influence.

The data is grouped into three (3) crime categories of Crimes Against Persons (counted per victim), Crimes Against Property (counted per incident), and Crimes Against Society (counted per crime against society).

Crimes against persons include assault, homicide, human trafficking, kidnapping and sex offenses. Crimes against property include robbery, burglary, larceny-theft, motor vehicle theft, and arson. Crimes against society include drug/narcotic offenses, gambling, pornography, prostitution, liquor law violations, disorderly conduct, peeping tom, curfew/vagrancy violations, trespassing, driving under the influence, and weapon law violations.

Law enforcement agencies report data from each offense and arrest for Group A offenses, but report only arrest data for Group B offenses. There are more offenses reported in NIBRS, more details per incident, and arrests and offenses linked in NIBRS.
