It is my honor and privilege to represent the Monterey Police Department (MPD) as the Chief of Police. The 2019 MPD Annual Report demonstrates some of the great work the MPD staff provides on a daily basis. As you review this report you will get a flavor of the commitment of the men and women that make up the MPD. The three MPD Values focus our service delivery.

- Maximize, Value and Train our MPD workforce
- Proactively Police the City of Monterey to Ensure a Low Crime Rate
- Develop, Embrace and Enhance Community Partnerships

We recognize that working for the City of Monterey is a privilege. We enjoy serving in a city that includes generations of hardworking community members, two military training institutions that prepare America’s service members, international and regional educational institutions, and a tourist destination that is rich in literary history and marine biology research, all in one of the most beautiful coastal locations in the world. We take all of this to heart in ensuring that we provide the most professional and contemporary police services to those that live, learn, work and visit Monterey.

I want to thank the community, City Council and all City Staff for their on-going support of the Monterey Police Department. I would especially like to thank the women and men who make up the Monterey Police Department for all of the things they accomplish due to their unwavering dedication to serving others.

All of us at the MPD hope that you gain more insight into your Monterey Police Department as you page through this year’s edition of the Monterey Police Department Annual Report.

RISE

MPD staff created the Resiliency, Investment, Support and Encouragement (RISE) team as an officer safety and wellness resource program to address issues related to negative aspects of working in law enforcement.

1. MAXIMIZE, VALUE AND TRAIN OUR MPD WORKFORCE

The MPD has had success in staffing unfilled positions.

There has been an increase of 3% (1.59 officers) more “street ready” officers on average when comparing 2019 to 2018.

This is a challenge as there is always a percentage (average -18% during 2019, compared to an average of -21% in 2018) of the sworn workforce that is not “street ready.” MPD implemented Monthly Hiring Boards and Recruitment Outreach during 2019 to improve and expedite the Department staffing process.

MPD Personnel attended 4,913 hours of training in 2019 (not including new officer training.)

Rigorous training and high standards for MPD staff equates to providing the highest level of service to the community. Training also ensures officers are able to effectively address rapidly developing violent situations to mitigate harm to officers as well as using the minimal amount of force options. MPD personnel attended 4,913 hours of training in 2019 (not including new officer training).

The MPD actively ensures a succession plan for the future by following California Commission on Peace Officer Standards and Training (POST) guidelines which mandates that all Field Training Officers, sexual assault investigators, first line supervisors and command staff attend rank appropriate professional development courses.

MPD staff attended LGBTQ Awareness for Law Enforcement, which was provided by the Monterey County District Attorney’s Office.

Since 2018, the MPD has utilized the web-based Law Enforcement Field Training Application (LEFTA) which includes Training Records Management software. The Field Training application is used to monitor on-the-job performance during the field training program and the probationary period. The other applications assist in recording and managing training.

1. ASSISTANCE AND SERVICES

Multi-Disciplinary Outreach Team- M. D. O. T

CAT and MPD officers offer services in every contact they make with persons who appear to be un-housed. MPD has collaborated with a myriad of agencies to address homelessness, domestic violence, substance abuse and other quality of life issues. This collaboration led to the creation of the Multi-Disciplinary Outreach Team (MDOT) and includes the following meetings and personnel (all of the personnel have devoted office space at the MPD and work directly along-side MPD CAT staff):

Homeless Exchange – a monthly meeting between the MPD Community Action Team and local social service providers.

City Liaison Group – a monthly meeting with multiple city department first line supervisors designed to address specific issues in the city of Monterey.

Adult Protective Services – a Monterey County social worker is an MPD CSO intern and handles issues related to elderly or dependent adults.

Montage Health/CHOMP Community Outreach – a CHOMP social worker engages with people in our community that are homeless or are in danger of becoming homeless.

Monterey County Behavioral Health – A Monterey County crisis worker is available to handle calls or on-going problems related to individuals suffering from mental health-related issues.

Interim, Inc. – An Interim Outreach Counselor working out of MPD provides resources such as housing, residential treatment, social support and supported education and employment services for adults who have mental illnesses.
Collaborative efforts by the CAT and the Multi Disciplinary Outreach Team have resulted in numerous success stories; Providing Services, Connecting programs and Housing the Homeless.

This course was co-taught by an MPD Sergeant and a Monterey County Behavioral Health Services Manager. The 8-hour training teaches officers to identify, understand and respond to signs of mental illness and substance use disorders. The training gives officers the skills to reach out and provide initial help and support to those who may be experiencing a crisis. The MPD is one of seventeen Law Enforcement agencies in California to be a part of the IACP One Mind Campaign.

**Integrating Communications, Assessment and Tactics (ICAT)**

The MPD provided officers with the Police Executive Research Forum (PERF) – Integrating Communications, Assessment, and Tactics (ICAT) de-escalation training which provides methods of how to respond to volatile situations in which subjects are behaving erratically and often dangerously but do not possess a firearm. The 16-hour training provides classroom training and opportunities to practice the techniques through video case studies and scenario-based training exercises.

**Crisis Intervention Team (CIT)**

The MPD continues to send all Police Officers to the Crisis Intervention Team (CIT) training which is hosted by Monterey County Behavioral Health Services. The 40-hour training is taught by behavioral health, law enforcement and advocacy group members. The training provides officers with tools to better understand common signs and symptoms of mental illness and co-occurring disorders; recognize when those signs and symptoms represent a crisis situation; safely de-escalate individuals experiencing behavioral health crisis and utilize community resources and diversion strategies to provide assistance.

**Successful Results**

- An armed suspect that had threatened his roommate with a handgun was successfully negotiated out of his residence and three firearms were seized.

- Officers were dispatched to a report of a mentally unstable juvenile who had armed himself with a hockey stick and a football helmet. Officers utilized their Integrating Communications, Assessment, and Tactics (ICAT) de-escalation techniques to talk to the subject, calm him, make entry into the residence and detain the juvenile without injury to any parties involved.

- Patrol responded to an individual who was in mental crisis threatening harm against officers and medical staff. Officers utilized ICAT and CIT techniques, spending approximately an hour talking to the individual until he decided to peacefully surrender to law enforcement.

- Patrol officers were able to assist another local police department in locating and safely contacting a suicidal subject in possession of a handgun. The person was detained and subsequently referred for mental health treatment.

- A suspect wanted in the violation of a Domestic Violence Restraining Order was taken safely into custody after a multi-hour barricade situation at the victim’s home.
