PARKMOBILE EXPANDS SERVICE IN MONTEREY Smart Parking Payment System Now in Cannery Row Area

Monterey, CA – The City of Monterey Parking Division announced today an expanded contactless smart parking payment system on Cannery Row and adjacent streets ([see map](#)) powered by the ParkMobile App. [The ParkMobile App was launched in December 2019](#) in the Downtown and Waterfront areas to improve service and convenience. The expanded service adds another 500 app-enabled spaces at street meters to the nearly 1,500 spaces in off-street lots around the City.

ParkMobile app sends you alerts when your parking session is about to expire so you can easily extend time right from your phone. In addition to the overall improved convenience of ParkMobile app, using the contactless forms of payment amid the COVID-19 pandemic in contrast to using pay stations helps prevent the spread of the virus.

"Monterey continues to expand easy payment options with ParkMobile throughout the City that provides the added benefit to public health during the pandemic," says Parking Superintendent Cristie Steffy. "We know a lot of people in Monterey already have the

(more)

ParkMobile app on their phones, which will make paying for parking easier at more locations across the city.”
