October 5, 2022

Dear Customer:

California American Water will begin a water main replacement project on Palo Verde Avenue, Helvic Avenue, and the alley connecting Helvic Avenue to Encina Avenue in Monterey. The project is anticipated to begin the week of October 10th and is expected to be completed by mid December 2022 and will be performed by our contractor, Monterey Peninsula Engineering.

The work will occur between 8:00 a.m. and 5:00 p.m. Monday through Friday.

This work is necessary to maintain critical infrastructure and reduce future and disruptive main breaks.

The main replacement process involves first replacing the pipe in a new location and temporarily patching the road. This will be followed by water pressure and water quality testing. There will be periods where service will be interrupted for short periods. You will be notified 48 hours beforehand if any such event occurs.

During construction, we will make every effort to leave driveways and other thoroughfares unobstructed. However, at times we may need to redirect traffic or institute brief lane closures. If you have any questions or concerns now or during the project you may contact the Project Manager at 831-646-3277.

Thank you in advance for your patience and cooperation.
Sincerely,

David Pezzini, PE
